

INDEX TO VOLUME 151

A

- Abscess, pulmonary, in infancy and childhood: report of 18 cases, 496
- Adenocarcinoma of the rectum: incidence and locations of recurrent tumor following present-day operations performed for cure, 340
- Adventitia, media and intima, the elastic properties of: the initial effect of thromboarterectomy, 480
- Amebic abscess of the liver drained through the common duct: report of a case, 465
- Aneurysm, aortic arch, method for resection of, 225
- of the ascending aorta, excision of, with prosthetic replacement, during cardiopulmonary bypass, 879
- ventricular, successful resection of, 22
- Antibiotics, influence of, on the spread of tumors of the colon: an experimental study, 917
- Antral exclusion with vagotomy, hazards of, in the surgical treatment of duodenal ulcer, 181
- Aortic prosthesis, reinforced Ivalon sponge as an, 216
- Arterial grafts, late behavior of: three to five-year follow up of homografts and synthetic prostheses in experimental animals, 867
- Arterial replacement, effect of whole-body radiation and infection on, 359
- Arteries, ileo-femoral, cross-over graft for unilateral occlusive disease of the, 26
- Artery embolectomy, superior mesenteric, 274
- Ascending aorta, excision of aneurysm of the, with prosthetic replacement during cardiopulmonary bypass, 879
- Autologous organ transplantation, significance of, in the approach to homotransplantation, 760

B

- Bile-duct strictures, an alternate method of repair of: Hepatocholeojunostomy roux-en-Y, 123
- Biliary-tract disease, mitral stenosis and, 139
- Blood-flow, measurement, electromagnetic, in extracorporeal circuits: its application to cardiopulmonary bypass, 71
- renal, influence of blood-sugar levels upon, 441
- renal, studies in: I. some general considerations, 47
- Blood, heparinized, effect of mechanical trauma on, 399
- Blood-sugar, levels, influence of, upon renal blood flow, 441
- level of, hemodynamic effects of intravenous injections affecting the, 453
- Brain, an analysis of 540 penetrating wounds of the, incurred in the Korean War: repair of dural defects by graft, 174
- Bronchiectasis, bilateral: surgical management with attention to the residual superior segment of the lower lobes, 715
- Bronchoplastic procedures for bronchogenic carcinoma, results of, 729
- Burns, experimental, debridement of, with *Clostridium histolyticum* H-4 enzymes, 589
- exposure of: a critical appraisal after 10 year experience, 939

C

- Calcification, pancreatic, and cancer of the pancreas, the relationship between, 530
- Cancer, chemotherapy, effect of hyperthermia upon: application to external cancers of head and neck, 750
- chemotherapy, studies on abdominal organ perfusion for, 741
- of the stomach and gastric cardia, evaluation of splenectomy as an aid in improving the radicality and results of abdominothoracic operations for, 29
- regional chemotherapy for, 605
- studies on the prevention of surgical implantation of, 581
- Carcinoma, bronchogenic, results of bronchoplastic procedures for, 729
- in situ and dysplasia of the cervix, 951
- metastatic, masquerading as primary thyroid cancer, 551
- nonfunctioning, of the adrenal cortex, 349
- normal and malnourished patients with and without, considerations of indications for preoperative transfusions, based on an analysis of blood volumes and circulating proteins in, 303
- of the gallbladder and acute cholecystitis, 241
- of the thyroid in association with struma lymphomatosa, 675
- oral, the effect of snuff and tobacco on the production of: an experimental and epidemiological study, 542
- Cardiac arrest, elective, effect on prophylactic digitalization on myocardial function after, 17
- Cardiopulmonary bypass, excision of aneurysm of the ascending aorta with prosthetic replacement during, 879
- Cells, tumor, operative wound seeding with, its role in recurrences of head and neck cancer, 330
- Cervix, carcinoma-in-situ and dysplasia of the, 951

- Chemotherapeutic response, clinical implications of the inter-relationship of tumor size and, 97
- Chemotherapy, cancer, effect of hyperthermia upon: application to external cancers of the head and neck, 750
- cancer, studies on abdominal organ perfusion for, 741
- regional, for cancer, 605
- Cholecystectomy, prophylactic, elucidated on the basis of long-term follow up on 526 nonoperated cases: surgical indications in cholelithiasis, 153
- Cholecystitis, acute, and cancer of the gallbladder, 241
- acute, management in, 769
- Cholelithiasis, surgical indications in: prophylactic cholecystectomy elucidated on the basis of long-term follow up on 526 nonoperated cases, 153
- Circulation, extracorporeal, renal function during, at high and low flow rates: experimental studies in dogs, 63
- Closure, primary, of the common duct, 255
- Colitis, ulcerative, place of fecal-diverting procedures in the surgical treatment of, 169
- Colon, anastomoses, healing of—an experimental study in the rabbit, 186
- endometriosis of the, simulating carcinoma, 896
- influence of antibiotics on the spread of tumors of the: an experimental study, 917
- and rectum, malignancy of, in patients under 20 years of age, 335
- Colostomy stenosis, Z-plasty for, 59
- Commissurotomy, open, the results of, in acquired calcific aortic stenosis: clinical and hemodynamic studies in patients operated upon with general hypothermia, 1
- Common bile duct, fate of free grafts in the, 776
- Common channel, evaluation of the, as a factor in pancreatic or biliary disease, 379
- Common duct, primary, closure of the, 255
- Congenital defects, complete repair of a syndrome of, involving the abdominal wall, sternum, diaphragm, pericardium and heart: excision of left ventricular diverticulum, 113
- Coronary occlusion, acute, experience with attempts at ventricular defibrillation in the presence of, 193
- Cortex, adrenal, nonfunctioning carcinoma of the, 349

D

- Debridement of experimental burns with *Clostridium histolyticum* H-4 enzymes, 589
- Defibrillation, ventricular, experience with attempts at, in the presence of acute coronary occlusion, 193
- Diaphragmatic hernia, postoperative, 805
- Diffusion chamber, homotransplantation of endocrine tissues in a, 460
- Digitalization, prophylactic, effect of, on myocardial function after elective cardiac arrest, 17
- Disc-oxygenator system, siphon-filling, experimental and clinical studies of a, for complete cardiopulmonary bypass, 285
- Disease, pancreatic or biliary, evaluation of the common channel as a factor in, 379
- Diverticulitis, intramural, 251
- Diverticula, jejunal: a cause of upper gastro-intestinal bleeding, 930
- Diverticulum, left ventricular, excision of: complete repair of a syndrome of congenital defects involving the abdominal wall, sternum, diaphragm, pericardium and heart, 113
- Dolichosigmoid colon, fixed retrocolic, right-sided, 268
- "Dumping syndrome," a study of the role of the pylorus in the prevention of the, 517
- Duodenal ulcer, hazards of antral exclusion with vagotomy in the surgical treatment of, 181
- Dupuytren's contracture: a morphologic evaluation of the pathogenesis, 577

E

- Embolectomy, superior mesenteric artery, 274
- Embolism, air, "coronary suction" as a source of: an experimental study using the Kay-Cross oxygenator, 75
- pulmonary, experimental, further studies with Serotonin and, 501
- Embolus, pulmonary, radioactive, behavior in the circulation of the, and its application to the study of fibrinolytic enzymes, 507
- Emergency service in teaching hospitals, 841
- Endometriosis, inguinal, 903
- of the colon, simulating carcinoma, 896
- Enzymes, fibrinolytic, behavior in the circulation of the radioactive pulmonary embolus and its application to the study of, 507
- Esophagitis, hiatal hernia with: treatment by hernia repair, vagotomy and pyroplasty or antrectomy, 812

Esophagogastrostomy without reflux, utilizing a submuscular tunnel in the stomach, 37
 Extracorporeal circuits, electromagnetic blood-flow measurement in: its application to cardiopulmonary bypass, 71
 Evacuation, gallbladder, roentgenologic study of, following non-biliary tract surgery, 403
 Exenteration operations, pelvic: with summary of 66 cases surviving more than five years, 571

F

Fascitis, pseudosarcomatous: a distinctive clinical-pathologic entity, 235
 Fecal-diverting procedures, place of, in the surgical treatment of ulcerative colitis, 169
 Fecaloliths, appendiceal, clinical and radiographic study of: review of the literature and report of seven cases, 374
 Fibrillation, ventricular, prevention of, during profound hypothermia by quinidine, 490
 Fibrinogen, effect of mechanical trauma on, in heparinized blood, 399

G

Gallbladder, benign neoplasms of the, 630
 carcinoma of the, and acute cholecystitis, 241
 Gastrectomy, total, in an infant, made necessary by ingestion of tinning paint, 891
 Gaucher's disease with ascites: response to portacaval shunt, 431
 Glove powder, starch, granulomatous peritonitis due to: a clinical and experimental study, 106
 Graduate surgical training, background and current status, 834
 Graft, cross-over, for unilateral occlusive disease of the ileofemoral arteries, 26
 repair of dural defects by: an analysis of 540 penetrating wounds of the brain, incurred in the Korean war, 174
 Grafts, free, fate of, in common-bile duct, 776

H

Hand, repair of tendon injuries of the, 562
 Hemorrhagic disorders occurring during and after surgical operation, 85
 Hepatocolangiojejunostomy roux-en-Y: an alternate method of repair of bile duct strictures, 123
 Hernia, hiatal, with esophagitis: treatment by hernia repair, vagotomy and pyloroplasty or antrectomy, 812
 postoperative diaphragmatic, 805
 Herniotomy for umbilical hernia in the bad-risk patient, 567
 Homotransplantation, of endocrine tissues in a diffusion chamber, 460
 significance of autologous organ transplantation, in the approach to, 760
 Hyperthermia, effect of, upon cancer chemotherapy: application to external cancer of head and neck, 750
 profound, prevention of ventricular fibrillation during, by quinidine, 490
 Hyperthyroidism, comparison of surgery versus other modes of treatment of, 669

I

Ileostomy, permanent, creation, care and complications of the, 970
 Implantation, surgical, of cancer, studies on the prevention of, 581
 Inguinal endometriosis, 903
 Injections, intravenous, hemodynamic effects of, affecting the level of blood sugar, 453
 Intestinal lesions associated with pheochromocytomas, further observations on, 683
 Intima, media and adventitia, the elastic properties of: the initial effect of thromboendarterectomy, 480
 Intracardiac bullet, right ventriculotomy for removal of, 231
 Intramural diverticulitis, 251
 Intubation, a postmortem evaluation of laryngotracheal alterations associated with, 130
 Ivalon sponge, reinforced, as an aortic prosthesis, 216

J

Jacksonville plan in postgraduate education, 849
 Jejunal diverticula: a cause of upper gastro-intestinal bleeding, 930
 Jejunum, primary nonpeptic ulcer of the, 594

K

Krypton, radioactive, the use of, and cardio-green dilution curves in the detection of experimental portal-systemic venous shunts, 146

L

Liver, amebic abscess of the, drained through the common duct: report of a case, 465
 Lymphadenectomy, evaluation of, in therapy of cervical cancer, 961
 Lymphangiosarcoma of the edematous extremity, 649
 Lymphoma, duodenal, primary, radical pancreatoduodenectomy for: report of a case, 101

M

Malignant melanomas of the head and neck, 91
 Marlex mesh, and tantulum (with a note on marlex thread): an experimental and clinical comparison—preliminary report, 796
 as a prosthesis in the repair of thoracic-wall defects, 469
 Measurements, continuous, of the plasma volume in a dog, method for the, 319
 Media, intima and adventitia, the elastic properties of: the initial effect of thromboendarterectomy, 480
 Mediastinal tumors, 783
 Melanomas, malignant, of the head and neck, 91
 Mesentery, panniculitis of the, 659
 Metabolism of guinea pig's ear skin, effect of heat on the, 419
 Mitral stenosis and biliary-tract disease, 139

N

Neck dissection, transverse incision for, 279
 Neoplasm, benign, of the gallbladder, 630
 Nipple, significance of discharge from the, in nonpuerperal mammary conditions, 638

O

Open-heart surgery, comparative study of polybrene and protamine for heparin neutralization in, 11
 Oxygenator, Kay-Cross, an experimental study using the "coronary suction" as a source of air embolism, 75

P

Pancreas, the relationship between pancreatic calcification and cancer of the, 530
 Pancreatoduodenectomy, radical, for primary duodenal lymphoma: report of a case, 101
 Panniculitis of the mesentery, 659
 Pectus carinatum (pigeon breast), operative correction of, 701
 Perfusion of the dog pancreas with bile without production of pancreas, 245
 Peritonitis, granulomatous, due to starch glove powder: a clinical and experimental study, 106
 Pheochromocytomas, further observations on intestinal lesions associated with, 683
 Pilonidal sinus, simple marsupialization technic for treatment of: long-term follow up, 261
 Polybrene and protamine, comparative study of, for heparin neutralization in open heart surgery, 11
 Postgastrectomy afferent loop obstruction simulating acute pancreatitis, 600
 Postmortem evaluation of laryngotracheal alterations associated with intubation, a, 130
 Presidential address (Southern Surgical Association—George G. Finney), 621
 Protamine and polybrene, comparative study of, for heparin neutralization in open heart surgery, 11
 Publicity, the public and the medical profession, 621
 Pulmonary abscess in infancy and childhood: report of 18 cases, 496
 Pylorus, a study of the role of the, in the prevention of the "dumping syndrome," 517

R

Rectum, adenocarcinoma of the: incidence and locations of recurrent tumor following present-day operations performed for cure, 340
 Renal blood flow, studies in: I. some general considerations, 47
 function during extracorporeal circulation at high and low flow rates: experimental studies in dogs, 63
 Renal hypertension, surgical treatment of, 854
 Resection, of aortic arch aneurysm, method for, 225
 Residency training in private hospitals, 845
 Retroperitoneum, primary tumors of the, 693
 Roux-en-Y, hepatocolangiojejunostomy: an alternate method of repair of bile-duct strictures, 123

S

Septum primum defect, surgical repair of, using open-heart surgery, and without the use of a patch, 338
 Serotonin, further studies with, and experimental pulmonary embolism, 501

Skin-flap, treatment of an avulsed, involving the circumference of the entire lower leg: case report, 437
Snuff and tobacco, the effect of, on the production of oral carcinoma: an experimental and epidemiological study, 542
Specialty training and reference to gynecology, 847
Splenectomy, elective: an analysis of 220 operations, 163
evaluation of, as an aid in improving the radicality and result of abdominothoracic operations for carcinoma of the stomach and gastric cardia, 29
Sponge, formalized polyvinyl alcohol (Ivalon), effect of specific compression on soft-tissue response to: critical evaluation, 409
Spontaneous return of function, following surgical section or excision of the seventh cranial nerve in the surgery of the parotid tumors, supplementary report on, 538
Stenosis, acquired calcific aortic, the results of open commissurotomy in: clinical and hemodynamic studies in patients operated upon with general hypothermia, 1
colostomy, Z-plasty for, 59
mitral, and biliary-tract disease, 139
valvuloplasty for acquired aortic, 203
Struma lymphomatosa, carcinoma of the thyroid in association with, 675
Survival of heterologous mammalian implants, 626

T

Thoracic-wall defects, marlex mesh as a prosthesis in the repair of, 469
Thyroid, carcinoma of the, in association with struma lymphomatosa, 675
Tobacco and snuff, the effect of, on the production of oral cancer: an experimental and epidemiological study, 542
Transfusions, preoperative, considerations of indications for, based on an analysis of blood volumes and circulating proteins in normal and malnourished patients with and without carcinoma, 303
Trauma, mechanical, effect of, on fibrinogen in heparinized blood, 399

T-tube drainage bag, a simple, 620
Tumor size and chemotherapeutic response, clinical implications of the interrelationship of, 97
Tumors, adrenaline and noradrenaline producing, of the adrenal medulla and sympathetic nerves, 391
mediastinal, 783
of the colon, influence of antibiotics on the spread of: an experimental study, 917
primary, of the retroperitoneum, 693

U

Ulcer, chronic duodenal, antrectomy with vagectomy or partial gastrectomy with or without vagectomy for: a comparative analysis, 367
Ulcerative colitis, place of fecal-diverting procedures in the surgical treatment of, 169
Ulcers, duodenal, experiences and concepts regarding vagotomy and drainage procedures, 827

V

Vagotomy and drainage procedures for duodenal ulcers, experiences and concepts regarding, 827
Valvuloplasty for acquired aortic stenosis, 203
Venous shunts, portal-systemic, experimental, the use of radioactive krypton and cardio-dilution curves in the detection of, 146
Ventricular aneurysm, successful resection of, 22
Ventricular fibrillation, prevention of, during profound hypothermia by quinidine, 490
Ventriculotomy, right, for removal of intracardiac bullet, 231

W

Wounds, contaminated by feces, experimental evaluation of methods used to prevent infection in, 912

Z

Z-plasty for colostomy stenosis, 59
